#### Our Washington Letter. [CORRESPONDENCE OF THE APPEAL.]

Washington, October 16 -The gassips have again revived the story of the forthcoming marriage at an early day of Secretary Lamar to a lady of Macon, Ga. Much sorrow is expressed at the

death of Mrs. Richardson, wife of Mr. Frank Richardson, of the Baltimore Sun. Her remains were buried Tue:day in the churchyard adjoining St. James's Protestant Episcopal Church, at My Lady's Manor, Baltimore county. A large delegation of relatives and friends from the surrounding country, Baltimore City and this city sion was formed at the outer gate, headed by the Rev. Dr. Geo. K. War-ner, rector of the parish. Within the church the usual Episcopal burial service was read by the rector. The altar was a mass of floral tributes, conspicuous among them being a large mound of roses from A. S. Abell and sons; a large Grecian cross, "the last tribute to Mrs. Richardsom from Newspaper Row, Washington, D. C., and a beautiful anchor, heart and cross from Mrs. Ann Keyworth, of this city. There were many impressive features about the ceremony. After the body had been lowered into its resting place the pall bearers officiated in fill ing up the grave to the chanting of the choir. The pall bearers were W. Hutchins, C. H. Holmes, Z. C. H. Streett, T. C. Hopswell, J. R. Rut-ledge and H. C. Hutchins. The Washingtonians present were James H. McKenney and wife, E. B. Hay and wife, Mrs. and Miss McFalls, the Mis es Gittings, Mrs. A. B. Mullet, Mrs. Dr. Garnett, Mrs. John Buteler, Mrs. A. D. Kearfold, Miss Chenowith, and J. B. McCarthy of the Hartford Times, R. M. Larner of the Washington bureau of the Sun, a committee representing the Wa hington corre-spondents, and bearers of the floral tribute from Newspaper Row.

The Washington police have donned their new uniforms. They are by far the handsomest of any in the country. I see you have in Memphis a Confederate Historical Society. Why does it not put itself in communication with the war records at this city? Col. R. N. Scott, Third United States Artilery, a native Tenneseean (born in Franklin county), and son of the des-tinguished Dr. U. A. Scott, of the Presbyterian Church, also a native Ten-nesseean, is in charge of the publica-tion, and has dem instrated his filness for the position by his work so far He is regarded by officers and so diers of both armies as 'the right man in the right place.

Under Col. Scott's orders, Gen. Marcus J. Wright, of Memphis, has been engaged since July, 1878, in collecting Confederate records for use in this great work. Col. Scott is willing at all times to give such proper aid as he can to local historical societies, Union or Confederate, and these societies can give him efficient aid in his great work. It is a matter in which the soldiers of both armies are interested.

#### THE CROP REPORT For the Past Week, as Furnished by the "Farmers' Revi. w."

CHICAGO, ILL., October 18.—The Farmers' Review publishes the following summary of its weekly crop report: Fall wheat seeding has been nearly finished in Missouri and Kan-ses and is still progressing in Indians, Onio and Michigan. The reports are not yet sufficiently complete to indicate the acreage as compared with former, years but the few returns made show an increase in Ohio and Indi-aus over last year. The Ohio reports show that the seeding was accom-plished under generally favorable con-ditions, though one or two counties report insufficient maisture. The conditions in Mi souri are generally reporced favorable. Reports of drouth again come from Kunsas, and in Da-vis, Rush and Summer counties the reports state that the winter wheat is again threatened with ruin owing to lack of rain. In Indiana, Iowa and Nebraska the conditions are reported favorable for fall plowing and seeding. In Ohio and Indiana the marketing of wheat is reported to be fee, while in Iowa and Minnesota it is fair, and in Kansas, Missouri and Illinois it is reported to be very small.

Ail for Buffalo's Storm Sufferers. Buffalo, N. Y., October 18.—The fund in aid of the storm sufferers now excee s \$1500. A letter was received from President Cleveland, this morning, enclosing a check for \$100 and expressing sympathy with the distressed people. There are 150 persons being cared for by the relief committee, and food and clothing are being liberally provided. There is considerable doubt expressed about permitting the squatters to return to the islands, to be the victims of every severe storm, and it is probable the city will refuse to allow future occupation of that strip of beach for living

### THE DISTILLERY CATTLE. The Slaughter Commenced and One

so Far Found Diseased. s aughter of the 2200 quarantined distillery cattle began yesterday in a small way. Twelve cows and two bulls were killed at the Stype & Bishop slaughterhouse, on the North Side. The animals were from the Shufeldt, Chicago and Problet dis-tilleries. A large number of cattle owners and several well known packers were present. The State veterinarians conducted a post mortem examination in each c se. Only one infected animal was found. The meat of the others was pronounced superb. It is understood that all of the meat except that of the animal condemned was disposed of this afternoon to local butchers' shops and brought good prices.

AND THE MEN DECIDE TO RE-TURN TO WORK

Without Conditions-Non-Union Men Will Be Retained-Other Labor Troubles.

CHICAGO, ILL, October 18.-The great strive at the stockyards is prac-tically settled. Delegate Barry, of the Knights of Labor, just stated to a reporter that he would have an interview with the packers this af ernoon, and that he would tell them that the men were prepared to work ten hours a day as demanded by the packers. He should use every endeavor to have the packers discharge all the non-union men they have brought in, but he would not keep the men out, he said, even if the packers refused to grant this. Armour & Co. say they will not discharge any of the men they have brought in, and that as far as they are concerned, they feel almost independent of the strikers. They killed 500 cattle yesterday with their new men

a d expect to kill 600 today.

Two members of the Executive Board of District Assembly No. 57 said there would be no trouble about the non-union men. If they were puto work in the houses with the union men, it would not be long before they would quit of their own accord, as things would be made pretty hot for

them. A non-union man came from the direction of Armour's packinghouse this morning and was set upon by a crowd of boys and severely thrashed. He finally made his escape. Short yafter 10 o'clock a Pick-rton man, in fu'l uniform and carrying two bundles under his arm, walked through the yards toward the Town Hall. Just before reaching the Exchange building he was surrounded by a crowd of boys, who hoo ed and y led at him. He put his hand in his pocket as though to draw a revolver. This act was greated by a shower of stones, and the officer started to run through the cattle pens toward the tracks on Fortieth street, where he was caught by a crowd of fully one hundred. His packages, containing his wardrobe, were taken from him and torn to pieces, and he was pounded and kicked around the face, head and body until he was insensible. While lying there his coat was taken from him and torn into shreds. He finally came to his senses and crawled off be tween the cars just as another crowd came up and wanted to kill him. A search was made for him, but he managed to secrete himself and finally got

awav. The s'rike of the packing house workmen was formally ended this afternoon. The strikers held a mass meeting on the prairie a 3 o'clock p.m., at which between 12,000 and 14,000 men were present. A proposition to re urn to work on the ten hour plan war carried almost unanimously, and the strike was declared at an end. Shortly afterward Mr. Barry, the Knight of Labor delegate, wait d on Mr. Armour, and said the strike was at an end, and that the men would return to work tomorrow morning without making any conditions. The packing house owners will keep all their new men, and by running the houses up to their full capacity, expect to be able to remain in their employ near'y all their old men.

The Striking Switchmen at Minne-

MINNEAPOLIS, MINN., October 18 .-The striking switchmen thow no disposition to do violence this morning, but seem to be awaiting the action of the railroad officials. The trains on one or two lines are moving without trouble; the others are idle. Large forces of special policemen are being sworn in, and the Northern Pacific and Manitoba railroad officials are arming their new employes with rifles, and express a determination to move trains at all hazards. As soon as the preparations are completed an effort to move trains will be made. No violence has yet occurred, and one of the railroad officials states that the whole trouble will probably be settled with in the next forty-eight hours. Mayor Ames has issued a proclamation regarding the strike, taking strong grounds on the question of the main-tenance of order and declaring that the laws will be enforced.

Moving Their Freight With Imported Men.

St. Paul, Minn., October 18.—The switchmen's sirke presents no new features up to this hour. The Manitaba road has not been able to move a single car of freight, though all paysenier trains are running on time. The Milwaukes and St. Paul road, by importing its men and organizing a large force of sectial police, are mov-ing freight without hindrance and taking all cars of freight, including perishable, in and out of both cities. wo engines were killed by strikers this afternoon, but no collision between the strikers and an horities occur ed. The Northern Pacific officials have ap plied for an injunction restraining 137 strikers, whose names are given in the bill in chancery, from interfer-ing with the trains of the road.
